Shoulder Solutions®

Improve Life

A Global Leader in Shoulder Arthroplasty

Rapid Momentum & Global Expansion

2019
Foundation and Manufacturing Planning.

2020
Design and Testing of Implants and Instruments

2021
Achieved CE and quality certification & Initiated sales operations in Turkey.

2022
Achieved market leadership in Turkey and expanded internationally

2023
Started sales in the Middle East, Africa, and Asia, and improved design and educational support globally.

2024
Managed the MDR process while developing products for Europe and Latin America.

Certificates

Our company, dedicated to achieving the highest standards of product quality and innovation, specializes exclusively in shoulder arthroplasty. We are proud to have obtained ISO 13485 and CE certifications for our range of products.

ISO 13485 Certified

CE 2292 Approved

An Exclusive Focus on the Shoulder

Our company, aiming for the highest level of production quality and concept, focuses exclusively on shoulder arthroplasty.

Reverse Shoulder Prosthesis

Cemented & Un-Cemented Dual HA Quoted

Reverse Shoulder Prosthesis

Metal Glenoid Baseplate
Ø: 24mm Ti+Ha coated
Central Peg L: 16-18-20-22-24-26mm
Central Screw L: 8-10-12-14-16-18mm
Post Extension L: 6-8-10mm

Post Extention
Cannulated L: 6-8-10mm

Locking - Standard Screw Ø4.5 mm
L: 20-22.5-25-27.5-30-32.5-35-37.5-40mm

Glenosphere
Centric & Eccentric
Ø: 36-38-40mm

Connection Screw for Glenosphere
Cannulated L: 26mm - Ø: 6mm

Humeral Liner (Uhmwpe)
Ø: 36-38-40mm
L: 3-6-9-12-15-18mm

Metal Back 10°
Ø: 36 L: 0-9mm

Collar Implant & Screw
W/ 6 suture holes

Epiphyseal Component
Cemented & Cementless
Ø: 27-30-33-36-38mm

Humeral Component
Cemented & Cementless
Size: 10-11-12-3-14-15-16-17-18-19-20

Connection Screw for Humeral Stem
L: 19mm

Humeral Stem
Cemented & Cementless
Ø: 8-9-10-11-12-13-14-15mm
L: 95-120-160-180-200mm

Cortical Screw
L: 18-20-22-24-26-28mm

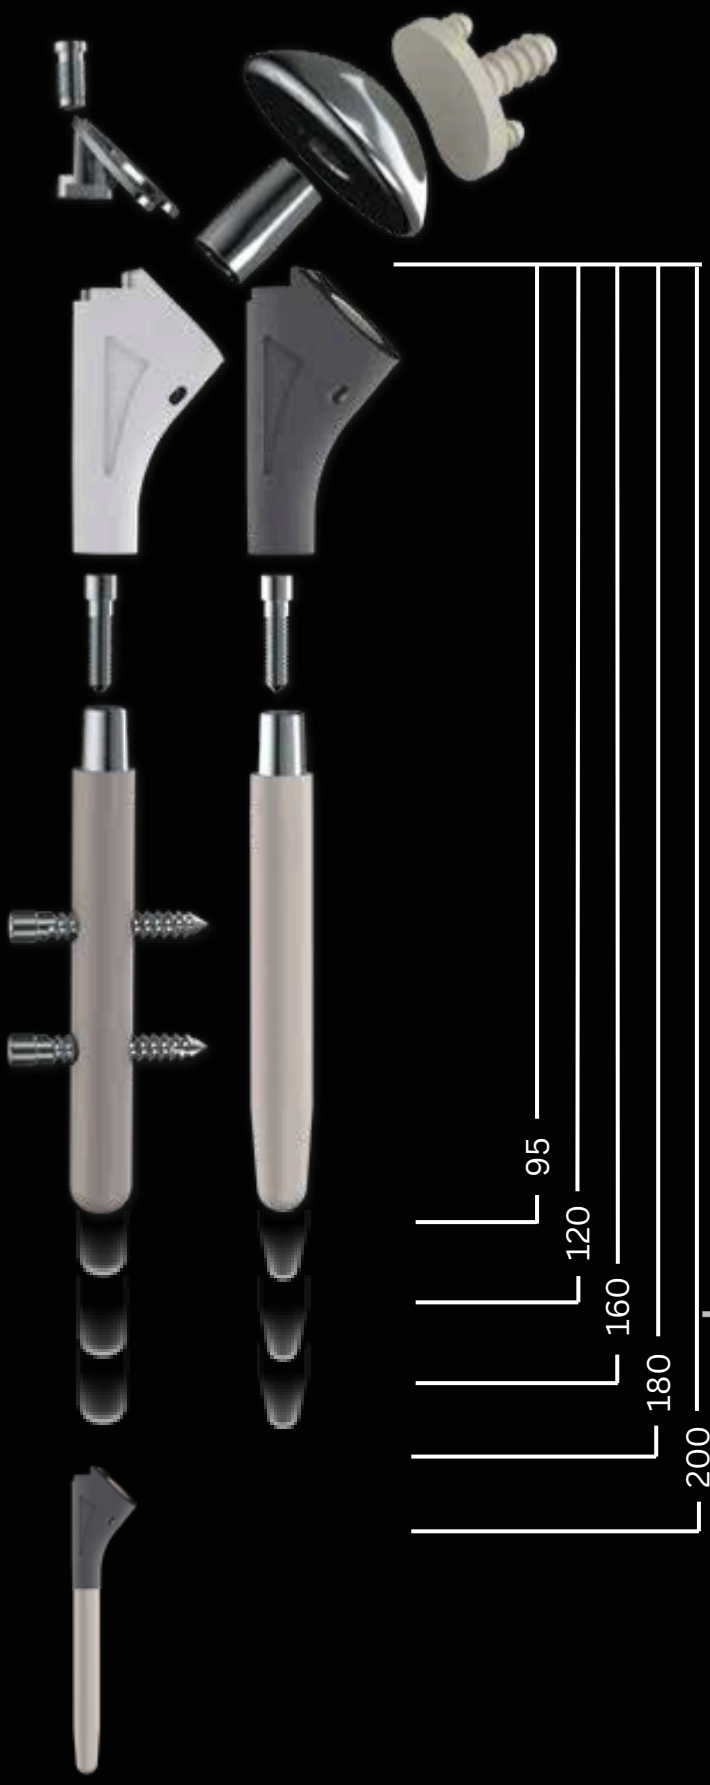

* The lenght includes the both humeral component and the distal stem.

Anatomic (Hemi & Total) Shoulder Prosthesis

Cemented & Un-Cemented Dual HA Quoted

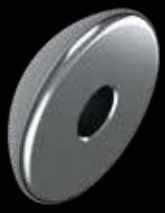

Anatomic (Hemi & Total) Shoulder Prosthesis

Polyethylene Glenoid
Size: xs-s-m-l

Humeral Head Centric & Eccentric
Ø: 39-43-46-50mm

Modular Neck
Lenght: 0-1-2-3-4-5

Collar Implant & Screw
W/ 6 suture holes

Epiphyseal Component
Cemented & Cementless
Size: 27-30-33-36-38mm

Humeral Component
Cemented & Cementless
Size: 10-11-12-3-14-15-16-17-18-19-20

Connection Screw for Humeral Stem
L: 19mm

Humeral Stem
Cemented & Cementless
Ø: 8-9-10-11-12-13-14-15mm
L: 95-120-160-180-200mm

Cortical Screw
L: 18-20-22-24-26-28mm

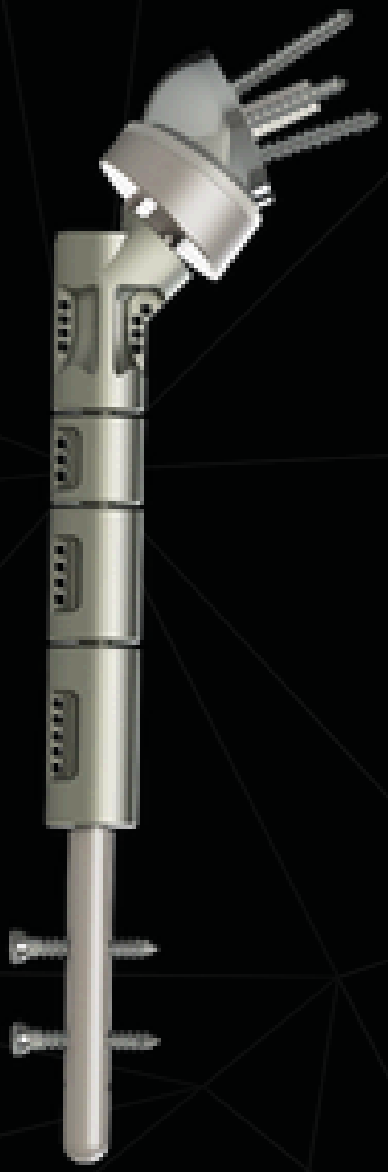

* The lenght includes the both humeral component and the distal stem.

Humeral Reconstruction Modular System (HRMS)

ANATOMIC

REVERSE

improve life
CE 2292

Humeral Reconstruction Modular System (HRMS)

THE PROSTHESIS PARTS PROVIDES OPPORTUNITIES FOR ALL TYPES OF APPLICATIONS SUCH AS; HEMI, TOTAL, REVERSE AND EVEN PRIMER SYSTEM PARTS

All Parts Of The System Are Conic And Locked With Screws For Secondary Fixation

HUMERAL COMPONENT

- LENGHT: 45mm

Thanks To The Multiple Holes It Helps Sew The Tendons

HUMERAL ADAPTER

- LENGHT: 20-30-
- 40mm DIAMETER: 20mm

The adapters are compatible with each other, regardless of size.

CONNECTION SCREWS

- DIAMETER:8mm
- LENGHT:
- 40mm.....120mm TOTAL 9 SIZES

It supports resections up to 145 mm; contact us for longer ones.

HUMERAL COMPONENT	ADAPTOR SIZES	TOTAL RESECTION	CONNECTION SCREW LENGTH SHOULDER BE USE
45mm	20mm	65mm	40mm
45mm	30mm	75mm	50mm
45mm	40mm	85mm	60mm
45mm	50mm	95mm	70mm
45mm	60mm	105mm	80mm
45mm	70mm	115mm	90mm
45mm	80mm	125mm	100mm
45mm	90mm	135mm	110mm
45mm	100mm	145mm	120mm
